Chair Size (reclined):	42" L x 27" W x 31" H
Chair Size (folded):	34" L x 27" W x 21" H

2-Year Limited Warranty

PROFESSIONAL MASSAGE TECHNIQUES

The iJoy 2.0 simulates the hand techniques of expert massage therapists, incorporating Stretch, Orbit, and Glide motion and perfect massage pressure to deliver remarkably effective results.

Orbit

Orbital strokes move in seamless glide over spinal muscles and spinal joint areas to help reduce and relieve back pain. The orbital movement is free from pinching and friction and will stimulate circulation, tone and relax muscles. Experience a soothing release of muscle tension.

Glide

The glide massage technique applies constant pressure while rolling gently up and down your back near your spine. Warms and loosens your muscles, preparing your back for a deeper massage.

Stretch

Relieves tension and soreness by lifting and stretching muscles. Improves deeper blood and lymph circulation and helps bring vital nutrients to the spinal area. Helps clear out the toxins from muscle and nerve tissue in the area.

FlexGlide

Patent pending orbital massage technology

Soothing, sensitive, and oh so luxurious, our **new FlexGlide** massage solution delivers a stress-reducing experience like never before. Free from the pinching and friction associated with typical massage chairs, every contour of your body is therapeutically touched by the unparalleled flexibility and seamless glide of our patent pending FlexGlide orbital technology. Much like a masseuse upgrading you from a dry to a warm oil massage, the FlexGlide experience will have you basking in the glow of ultimate relaxation.
